

# ***Insight You Can Trust, Built to Last***

**Our team provides IT technology  
and consulting assessments to fit  
your operations.**

***Stay connected with  
primeBUILD, your reliable  
IT partner!***

## **What We Do**

From blueprints to operations, primeBUILD can heatmap new construction or remodels to create optimal network infrastructure, procure and install any necessary equipment, and set up a personal network monitoring system to track performance and alert to any potential issues.

### **ABOUT US**

For nearly two decades, we've delivered integrated data and fast tech solutions to healthcare operators across 7,500 + U.S based facilities.

## **Why Choose Us**

- +** Build your optimal communication platform from the ground up
- +** Post-implementation monitoring to ensure success through network review and primeWIFI.ai
- +** Partnerships for internet services, installation, and low voltage needs.
- +** Blueprints for remodels and new development, our technology outlines and enhances those hard to reach connections.

# Construction-Customized Technology

Our combined procurement and partnerships provide 24/7 support, historical analytics, and cost-effective solutions for all your buildings.

## How We Do It

- + Client-specific solutions mean you get exactly what you pay for.
- + More security and stable communication due to enhanced wireless connection.
- + Network segmentation options to allow use for the building or individualized plans at the resident level.
- + Enhanced performance, ease of maintenance, and support.
