

DID YOU KNOW...

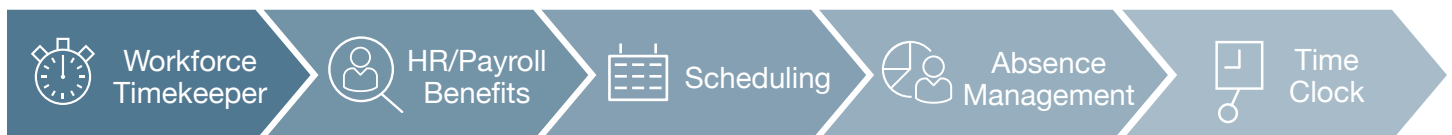

You can pair our professional services and top-notch IT support with the leading industry-wide workforce management solution?

Leveraging UKG Workforce solutions with Prime Care Technologies technical partner services delivers a powerful technology for automating and integrating time and attendance to your advantage.

As a 10+ year certified UKG partner, no one can better deliver the hands-on implementation and support that long-term care (LTC) and other industry providers need — all through one contact and contract.

Since 2003, Prime Care Technologies has equipped businesses with flexible cloud-based services and applications that continue to evolve based on the greater revenue cycle needs of multi-facility organizations.

End-to-End Workforce Management, Full-Service Tech Support

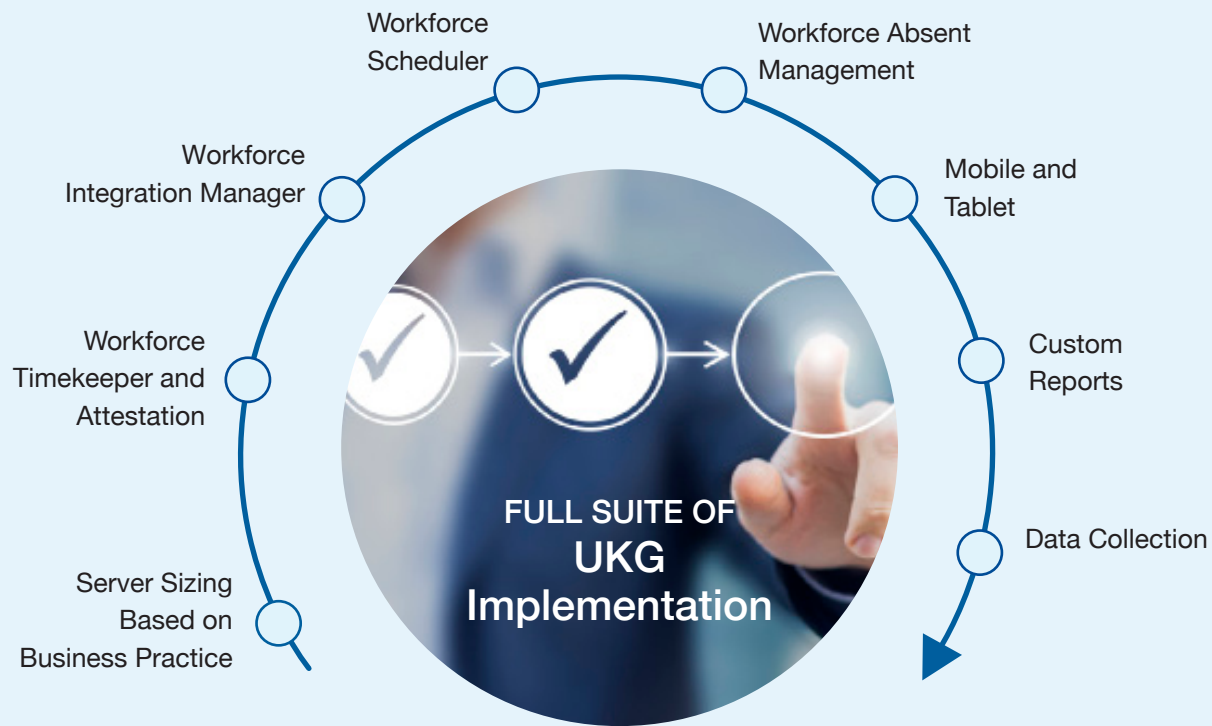

- Control labor costs, minimize compliance risk and improve productivity, so you can deliver quality, cost-effective care.
- Simplify the tedious tasks of monitoring employee time/attendance, labor tracking and data collections.
- Integrate UKG data with every-day applications like payroll, scheduling and our primeVIEW dashboard for operational performance.

Top 3 Reasons to choose us for workforce management

1. Hosting and UKG expertise in virtually every industry
2. 10+ years UKG implementation and support expertise
3. Easy integration with the primeVIEW dashboard for LTC providers.

End-to-End Implementation

WHAT YOU CAN EXPECT

In addition to equipping you with end-to-end implementation and full tech support, Prime Care clients also stay updated on the latest changes and add-ons to ensure you are fully leveraging the benefits of UKG Dimensions workforce management.

We also help you:

- Create/modify interfaces between UKG and any payroll system
- Configure and implement new pay rules or modify existing pay rules
- Monitor, configure and maintain clock devices; perform firmware updates
- Upgrade from any version of UKG to current with secure archiving of historical data.
- Size servers for new upgrades and/or business growth
- Create customized reports
