

High turnover is a challenge for all. The key is to hire well, yet quickly, and ensure that you have access to a large pool of qualified candidates. JobCenter, a primeFORCE technology, can help. It provides the online tools you need to better select and recruit in a highly competitive market.

Solve High Turnover with Increased Efficiency

JobCenter's ability to centralize applicant data in a single online location, while providing alerts and tracking, makes the hiring process faster than ever.

Features

- All stakeholders can access applicant data and status
- Applicant eligibility for Work Opportunity Tax Credit (WOTC) is checked
- Applicant data is easily transferred to new hire onboarding

Benefits

- Recruiters shift focus to scheduling interviews; hiring managers readily screen qualifications
- WOTC-qualified applicants may generate tax credits ranging from \$2,400 to \$9,600 if hired
- Optimized onboarding and orientation accelerates new hires into training and service

Assess WOTC Eligibility Before You Hire

Our JobCenter application now includes WOTC validation questions. Here's how it works:

1. Once submitted, the system grades answers to give a pass or fail score.
2. JobCenter then automatically sets up a flag in the applicant profile indicating WOTC qualification.
3. If applicant is hired, JobCenter sends email to you indicating next steps for securing WOTC.
