

Challenges

Collecting, editing and reporting PBJ data each quarter is tedious, especially with your Five Star staffing rating on the line.

- Disparate data from multiple sources
- Manual reporting is often inaccurate
- Reporting comes too late to change staffing

Solution

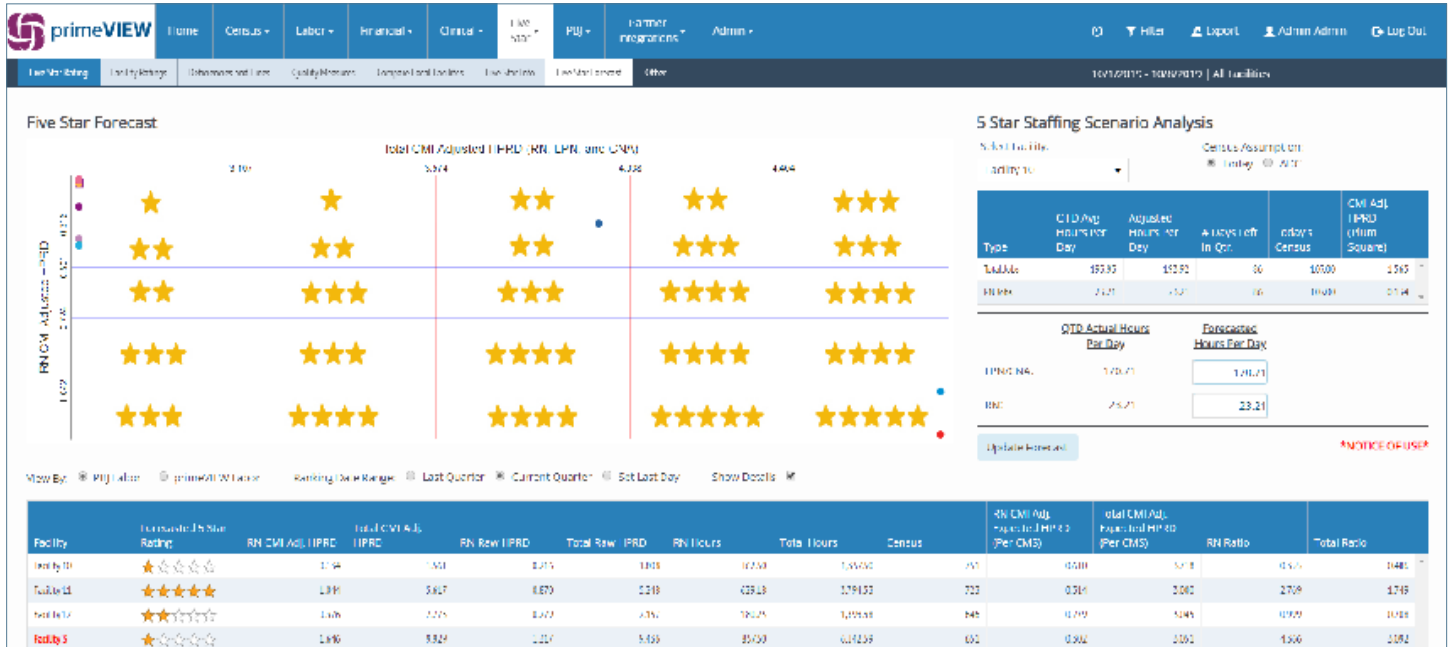

Protect Your Five-Star Staffing Rating with Minimal Effort and Cost

- Control accuracy of data through consolidated reviews and onscreen editing.
- Stay audit-ready with dynamic internal review capabilities and RN/CNA coverage alerts.
- Predict acuity-based staffing star for next quarter when you submit previous quarter's report.
- Proactively adjust next quarter's labor based on forecasting.
- Get alerts when MDS discharge assessment is missing to assure CMS has correct stay data.
